

FAQs- JioMeet

Service Offerings

1. What is JioMeet?

JioMeet is a Video Conferencing Service that allows you to conduct a conference call (video or audio) anytime, anywhere. Businesses can connect with up to 100 participants in a conference using the JioMeet app on a desktop/ laptop, smartphone, or from a legacy Video Conferencing (VC) device.

2. What is JioMeet Pro?

JioMeet Pro is a version of JioMeet, that allows for multiple Admin/ Host licenses and is ideally suited for business users. The following features are available in the Pro version-

- Conduct video calls with up to 250 participants
- Have an Admin portal to manage licenses
- Get User Management rights
- Record meetings

3. How can I download JioMeet app?

JioMeet is available in both desktop and mobile versions. Here are the links to download JioMeet

- On Mobile Device – Go to Google Play Store/ iOS AppStore, search for JioMeet application and download it.
- On Desktop – Visit <https://jiomeetpro.jio.com/home#download> and download JioMeet application.

4. How can I join the meeting on JioMeet?

Please follow the steps mentioned below to join the meeting:
Tap on 'Join' >> Enter Meeting ID/ Link >> Join Meeting.

5. What is the maximum number of participants that I can invite in a call/ meeting?

As a host of the call/ meeting, you can invite up to 250 participants, including yourself.

6. As a host of the call/ meeting, what controls will I have?

As a host, you have the following controls:

- **Group host controls** - You can control the mic of all active in-call participants at once

- **Individual host controls** - You can individually control mic, camera, rename, make host, ask to start a video, or remove active in-call participants

7. As a guest user, can I join a meeting using a Meeting ID?

Yes. As a guest user, you can join a meeting using the Meeting ID. Follow the steps mentioned below to join a meeting:

Tap on Join option >> Enter Meeting ID >> Enter your name >> Join Meeting >> PIN (if any)
Please note: Host also has option to “Don’t allow guest users” and if selected, guest users can’t join.

8. How to mark a favourite contact?

You can mark a contact, VC room, or group as a favourite by following the steps mentioned below:

Go to Contacts Tab >> Tap on any contact >> Tap on Star

9. Can Host mute/ unmute all attendees at once?

Yes. You can mute/ unmute attendees as a Host.
Please tap on Participants option >> Mute/ Unmute All.

Moreover, any participants joining the call after the host has muted all the participants will participate as muted by default. The option to force mute all attendees is also available.

10. Can I raise my hand in the call?

Yes. The option of raising a hand is available in JioMeet call.

11. Can the participants start the conference even without the host being part of the call?

Yes, it depends on the meeting settings enabled by the host.

12. What is the difference between ‘Leave Meeting’ and ‘End Meeting’?

- **Leave Meeting** - Host/ attendees can leave a meeting anytime, but other participants will continue in the call
- **End Meeting** - The host can end the meeting for all

13. Can I make a dial-out call to a VC (Video Conferencing) Room?

Yes. Dial the IP address of the destination legacy endpoint to dial out a call to a VC room.

14. How do I schedule a meeting?

Please follow the steps mentioned below to schedule a meeting:

Home/ Dashboard >> Plan a Meeting >> Fill the details >> Schedule

15. How to view contacts?

JioMeet quickly and easily recognizes which of your contacts are using JioMeet by server syncing your phone's address book.

Open JioMeet > Go to Contacts tab

Your phone contacts, which are already registered on JioMeet can see JioMeet call and native dialler options.
