

An AI based contactless attendance platform to manage workforce efficiently and offer safety and convenience to employees

Business Application

JioAttendance

JioAttendance is an Artificial Intelligence (AI) based 'Contactless Attendance & Access control' Cloud platform enabling employers like you to manage your workforce remotely. It enables employees to mark their attendance safely from their personal mobile phone or from a common mobile device by showing their faces in front of the app. It is a contactless attendance system, thus protects employees from exposure to infections like Covid19. Using JioAttendance, managers can get a full view of employee's presence, location and timings.

BENEFITS

Convenient

Access for managers from any device (desktop/ laptop or mobile) anytime, from anywhere

Indigenous Solution

Home-grown solution with data storage in India
