

This retailer did not allow lockdown to stop him reaching his customers. JioMeet is helping him engage and sell virtually. See how...

Arun is the owner of a Home Appliances store

Due to social distancing, not many customers are physically visiting his store

So, he decided to use JioMeet, India's own 24 hr video-conferencing app for product demos

With HD video calls Arun had engaging interactions with customers which helped him close deals much faster

Arun can now

Conduct meetings with customers, partners and people from other organizations with up-to 250 participants

Have 24 hour non-stop video meetings

Use Merged Contact List to meet professional and personal collaboration needs

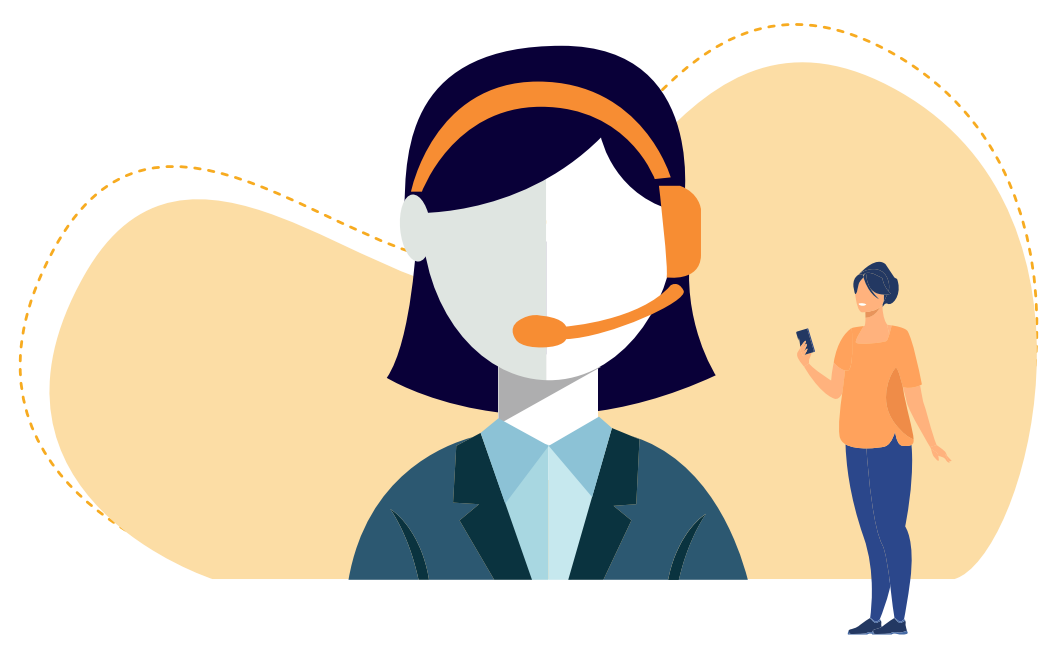

Sign-in simultaneously on multiple devices, switch between multiple devices during a call

Like Arun, you too can do so much with **JioMeet**. For instance, connect with your

Prospect customers to pitch products/ services

Existing customers for technical/ service assistance

Employees for team meetings, reviews and discussions

Suppliers and vendors for placing inventory order

Get **JioMeet**, India's own, secure video conferencing solution for everyday business and give your business the edge it deserves.
