**ENVIRONMENT POLICY**

## Reliance Jio Infocomm Limited

### Environment Policy

Protection of Environment is of prime concern and an important business objective at RJIL. With leading role in providing competitive services in broadband network in India, RJIL is conscious of its responsibility towards creating, maintaining and ensuring a safe and clean environment for sustainable development.

In particular, RJIL is committed to:

- Comply with relevant laws and regulations as well as take any additional measures considered necessary.
- Follow a systematic approach to environment management plan to achieve continual performance improvement.
- Promoting circularity by deploying eco-design principles across products and services in line with the 5Rs (i.e., Refuse, Reduce, Reuse, Recycle and Recover).
- Conserve natural resources by their responsible and efficient use in all our operations.
- Development, use and promotion of environment friendly technology, products, and services throughout our value chain.
- Plant trees, develop green belts and promote lush green surroundings at our facilities/ locations to be in harmony with nature; protect biodiversity in and around our facilities, locations, and along new fiber routes.
- Support precautionary approach to address environmental challenges.
- Emphasize every employee's responsibility in environmental performance, ensure appropriate operating practices and training.
- Promote awareness amongst contractors, suppliers, and customers for shared responsibility towards environment protection.
- Make this policy available to public.
