

Convert your Physical SIM to eSIM or Transfer Jio eSIM from one device to Motorola device in 5 Easy Steps

Please Note : It is mandatory to complete all 5 steps to activate eSIM on your Motorola device

Please don't skip or avoid any step

If you wish to transfer eSIM from existing device to Motorola device, You must have your active eSIM device to initiate eSIM request via SMS

If you don't have your active Jio eSIM device with you, Don't worry you can visit nearest Jio store with any Proof of Identity along with new Motorola device for activating eSIM services

To start the eSIM process, Please ensure you have

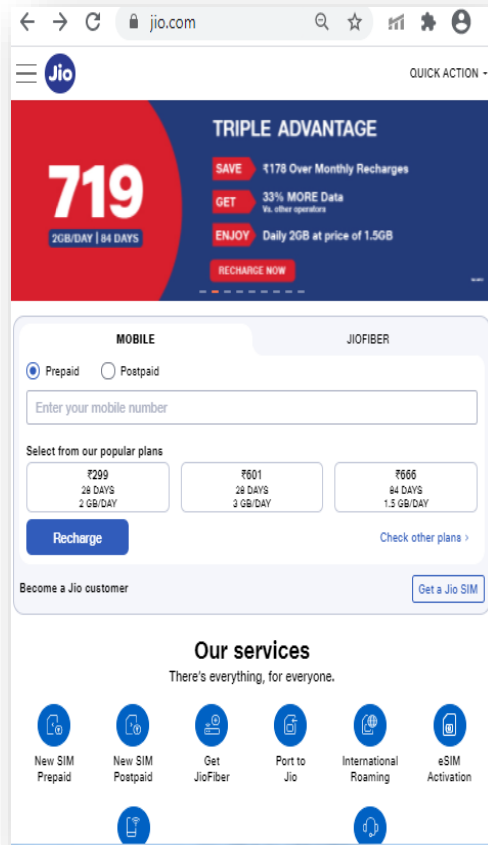

- 1. An eSIM Compatible device**
- &**
- 2. Your email id registered for your Jio number**

To check whether your device is compatible with eSIM

1. Go to

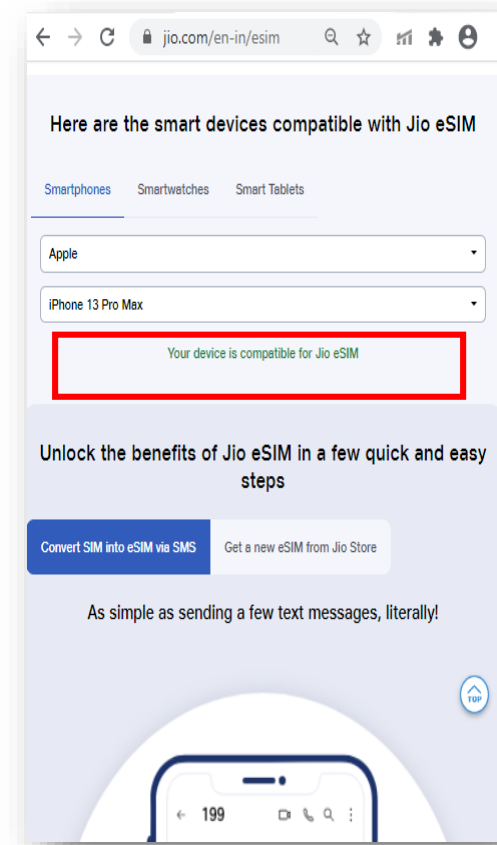

<https://www.jio.com/en-in/esim>

2. Select Your Device
make & model

3. Refer the
Compatibility Status

Now that you know, your device is compatible with Jio eSIM, lets move to the next step
Please note if your device is not compatible, You can use physical Jio SIM

Lets check if your email id is registered for your Jio number

1. Open MyJio app

2. Click on Menu

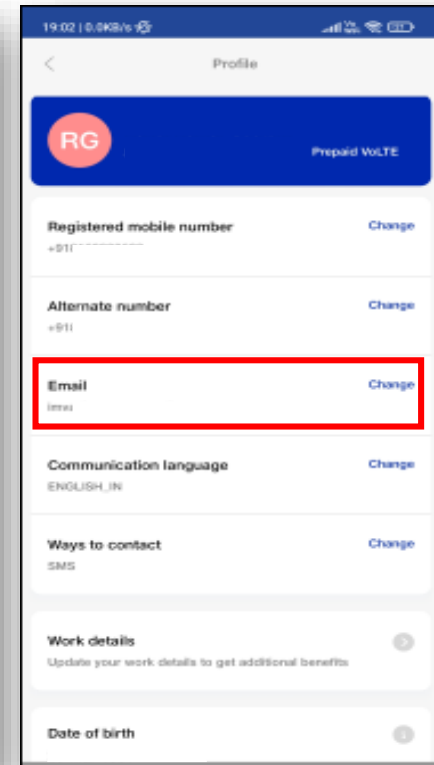

3. Tap on Profile and Settings

4. Tap on Profile

5. Check email id

If email id is not registered or updated incorrectly

1. Tap on Change

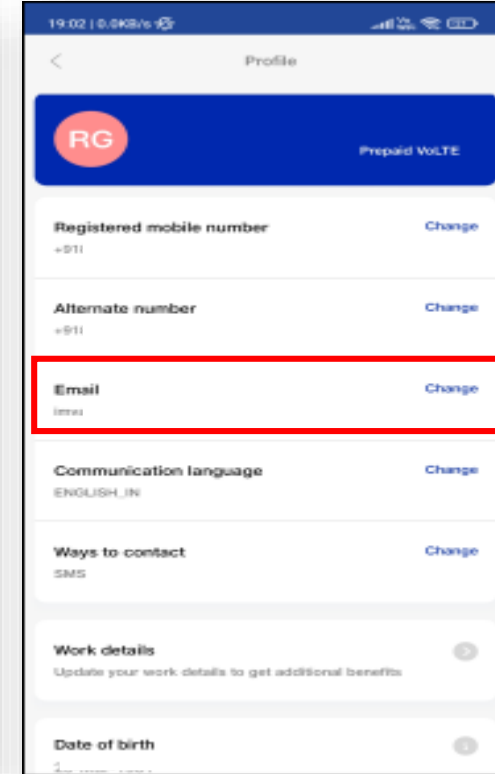

2. Enter correct email id

3. Enter OTP sent on new email id & Submit

4. Check new email id updated

Lets proceed to the next step

To initiate the 1st step, you need to have the EID Number and IMEI number of the device on which you wish to activate your Jio eSIM

We suggest you to please write down the EID number and IMEI number as they are lengthy and need to be sent via SMS

To find the EID number and IMEI number on your Motorola device

1. Go to Settings & Tap on About Phone

2. You will find 15 digit number in IMEI (SIM slot 2) field, Now Tap on IMEI (SIM slot 2)

3. You will find 32 digit EID number in EID field, Please write down IMEI (SIM slot 2) & EID number

Now that you have the EID and IMEI number, lets begin with the eSIM activation

Please note, you have to complete all the steps to activate the eSIM on your device. Do not skip any step.

And ensure that your eSIM Motorola device is connected to the internet using Wi-Fi or Mobile Hotspot during this process.

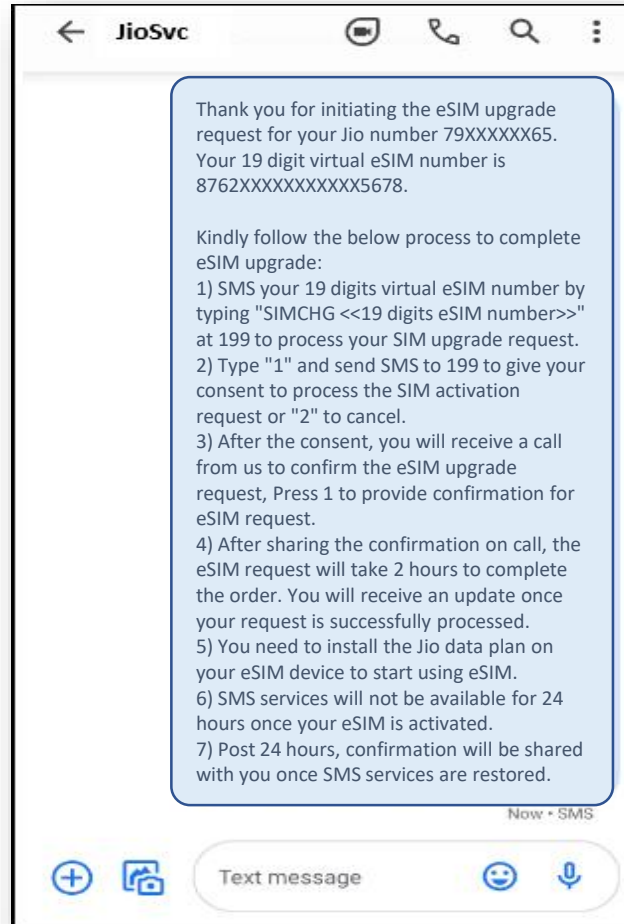

Step 1

1. Open messages and compose a new SMS
2. Type **GETESIM** <space><32 Digit EID><space><15 Digit IMEI> and send to 199 from the Jio number you wish to upgrade to eSIM

If you get revert SMS asking to update your email id, please go ahead and update your email id in your account as suggested in the beginning of this document

19 digit eSIM Number

- On sending the correct EID and IMEI number to 199, You will also receive a 19 digit virtual eSIM number via SMS on your Jio number.

Please note 19 digit virtual eSIM number will also be sent on your registered e-mail id.

- If you get revert SMS or email asking to send correct EID and IMEI number, Please re-verify the EID and IMEI sent by you and resend the SMS as mentioned in Step 1 on previous page

Step 2

1. Copy the 19 digit eSIM number from the SMS sent on your Jio number
2. Open messages and compose a new SMS
3. Type **SIMCHG <space><paste or enter 19 digit eSIM Number>** and send to 199

On sending the correct eSIM SMS, you will receive a confirmation SMS & email

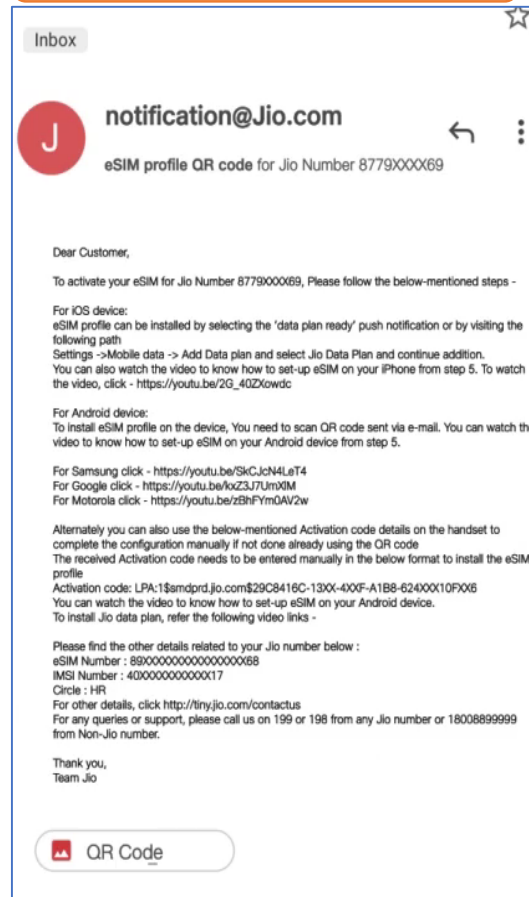

If you get a SMS & email asking to send correct eSIM number, Please re-verify the eSIM number and resend the SMS to 199

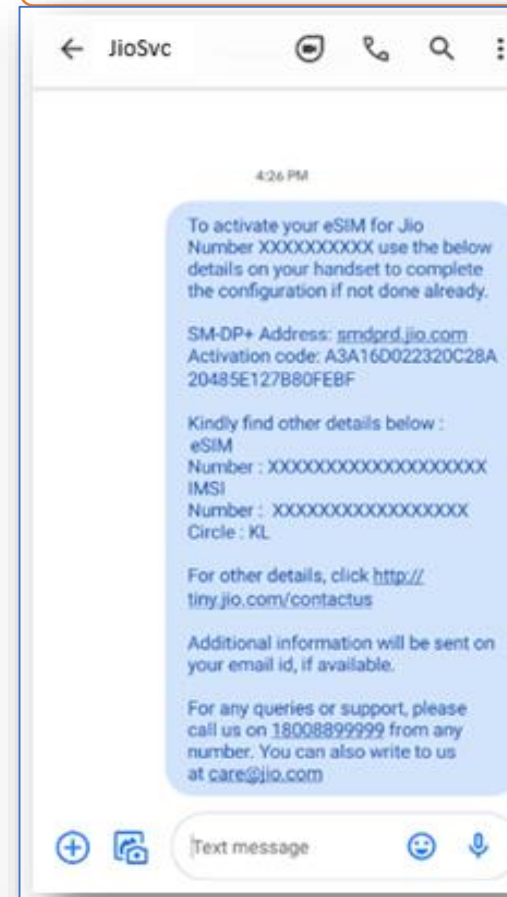

SMS sent on 199

QR Code eMail

eSIM Activation Details

Step 3

- Open Messages and compose a new SMS
- Type **1** and send to 199
- On sending the consent SMS, a confirmation SMS & QR code email on your registered e-mail id. You will also get activation code details via SMS on your Jio number.

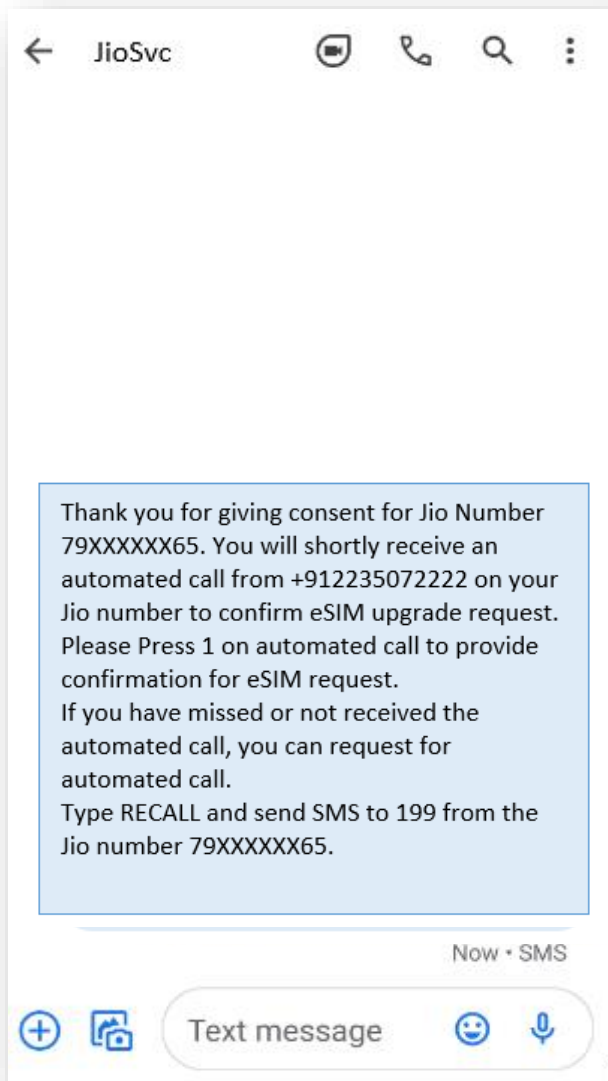

- Please don't delete the QR Code email or Activation code SMS, You will require it later to install eSIM profile on your device

If you wish to cancel your eSIM request for any reason

Type **2** and send to 199

Step 4

1. Within 10 minutes of sending consent SMS, you will receive a call from **+912235072222** on your Jio number asking for your consent to process eSIM request. Press 1 to share your consent on automated call.

2. After sharing consent on the IVR, a confirmation sms & email will be sent to you.

In case you have missed the IVR call or disconnected the same before you could share your consent, don't worry you can request for automated call.

Type RECALL and send sms to 199 from your Jio number

In case you don't get the IVR call within 10 minutes of sending the consent SMS, we suggest you check your missed call list as you may have not answered the call thinking it is a spam call or check if you have enabled spam blocking via your phones dialler or any 3rd party apps.

Post sharing your consent on IVR call, You will have to wait for 2 hours while we process your request

Please note that during this period, You will be able to use all the services of the Jio number on your existing SIM

As soon as you receive this SMS, Your existing SIM will stop working and your phone will show 'No Network'

You are now just one step away from activating your new eSIM.

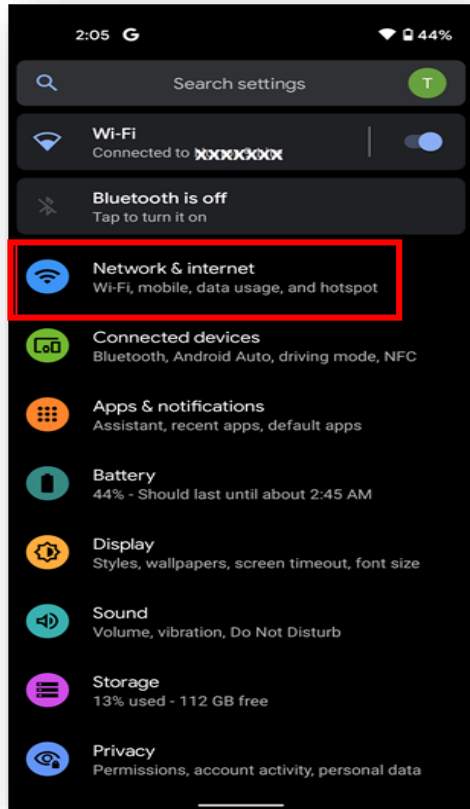

Please ensure that your Motorola device is connected to the internet using Wi-Fi or Mobile Hotspot during this process.

To complete the activation process, you need to configure eSIM profile using activation code on your Motorola device.

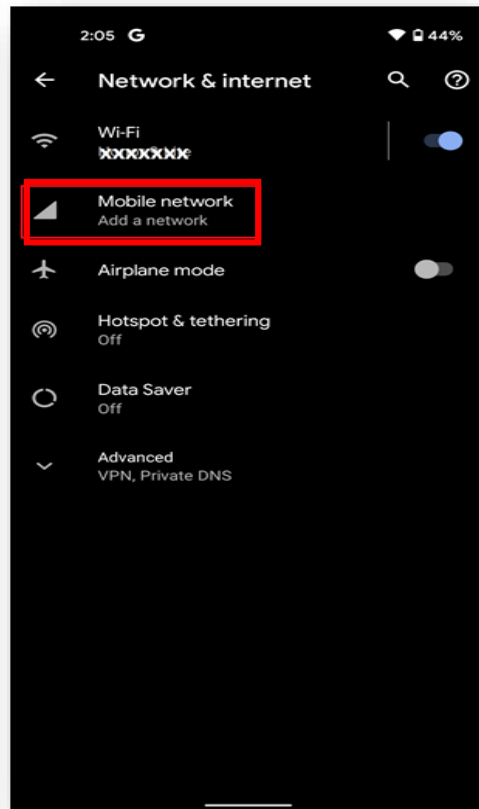

Step 5 – Option 1 (Using QR Code)

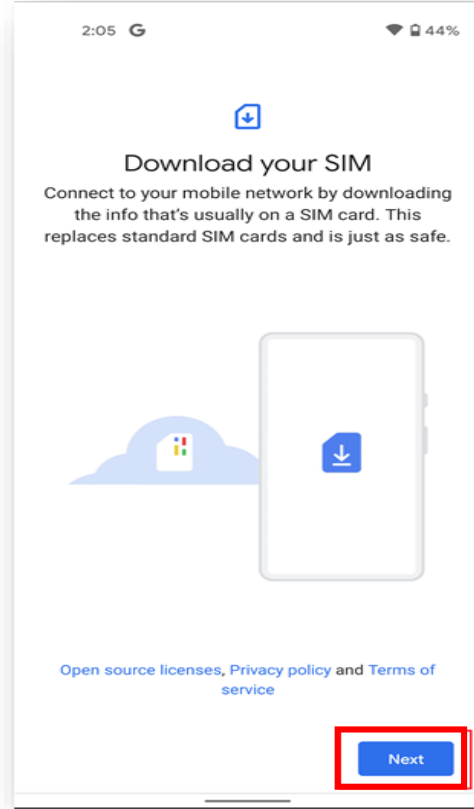

Go to Settings & Select Network & Internet

Tap on Mobile Network

Tap on Next

Please note : For Motorola RZAR device, after selecting Mobile Network, Click on Advance Option >> Tap on Carrier>> then click on “Next”

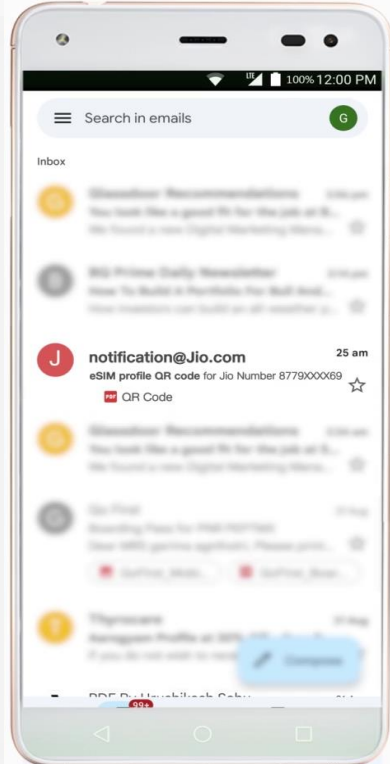

The images shown here are for illustrative purposes only and may change with updates to the device operating software

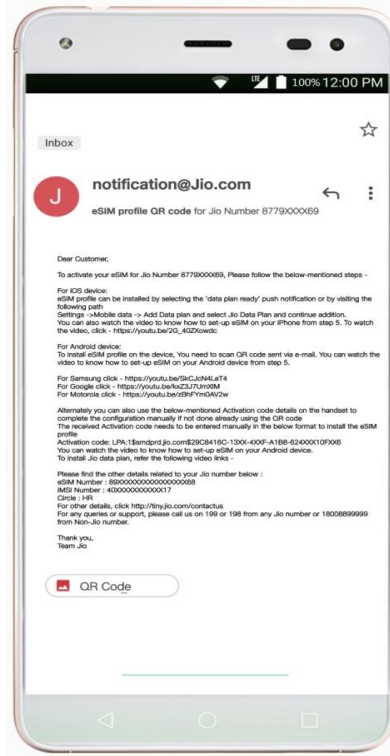

Please wait for few seconds for your device to show the next screen

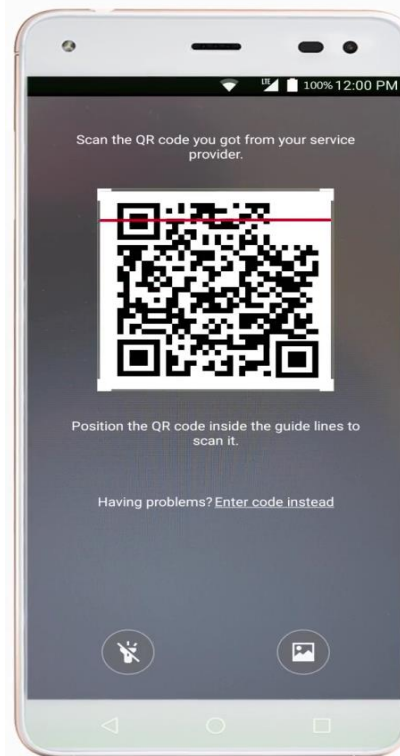

Now, Go to your e-mail inbox

Open e-mail received from Notification@Jio.com and click on QR code attachment

Now, Scan the QR code with the device

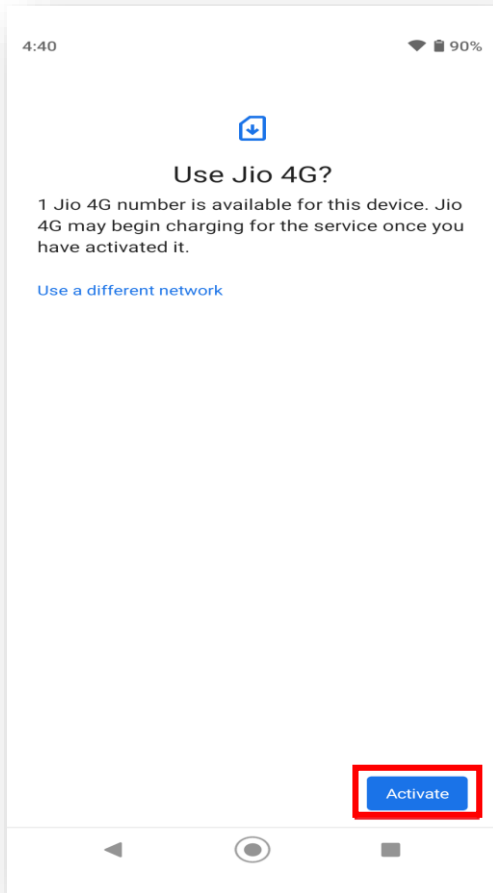

Scan QR Code received via email

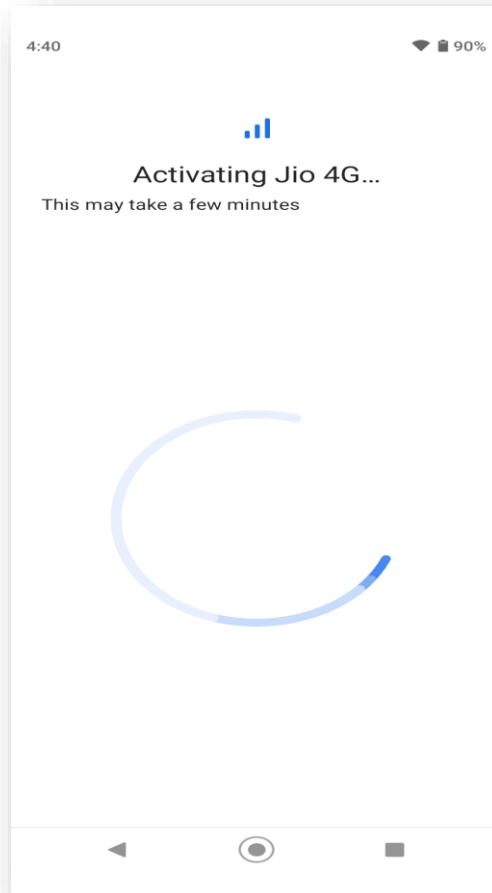

The images shown here are for illustrative purposes only and may change with updates to the device operating software

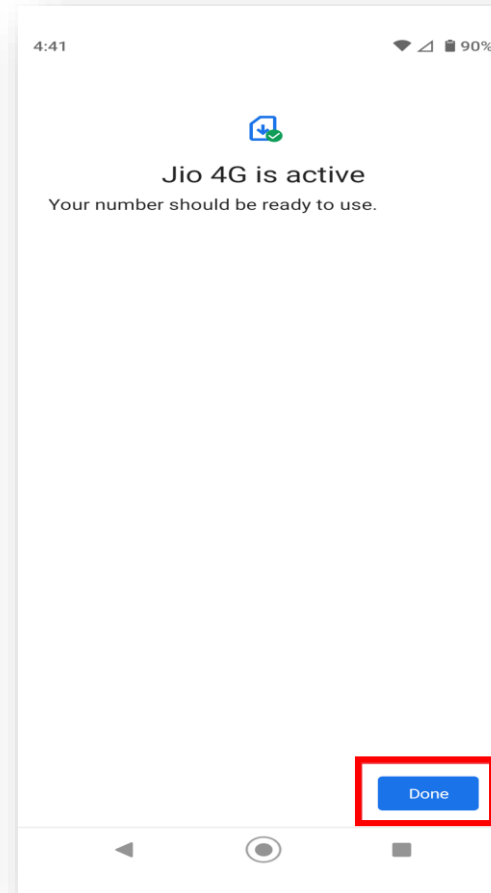

After scanning the QR Code,
Tap on "Activate"

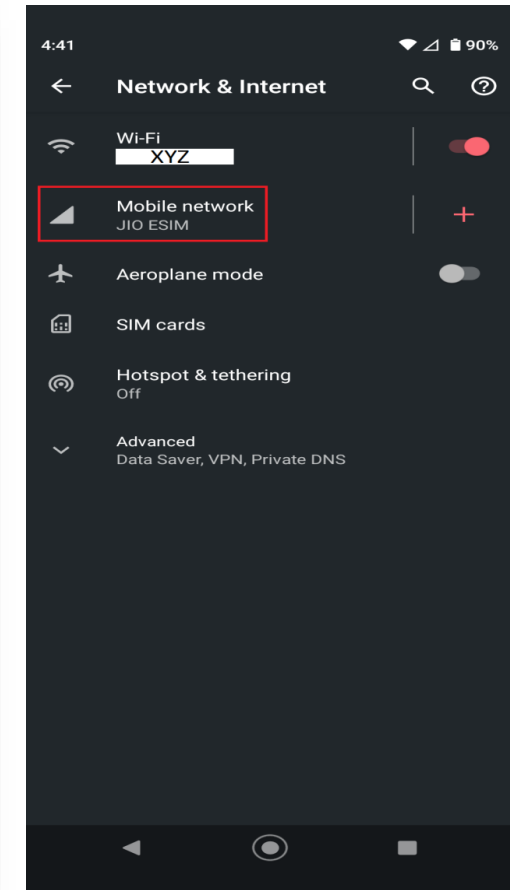

Please wait for the eSIM
activation to be completed

Once activation is
completed, Tap on "Done"

Jio eSIM gets successfully
activated and reflects under
Mobile Network

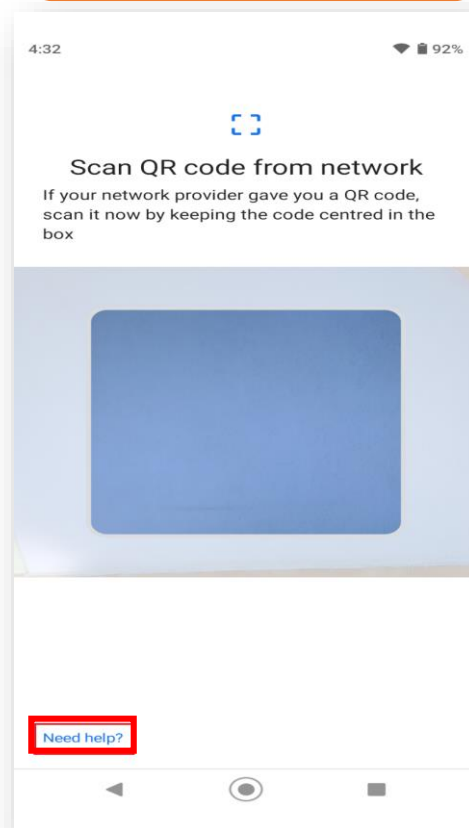

Step 5 – Option 2 (Activation Code)

If you are unable to SCAN QR CODE for any reason, Follow below mentioned steps -

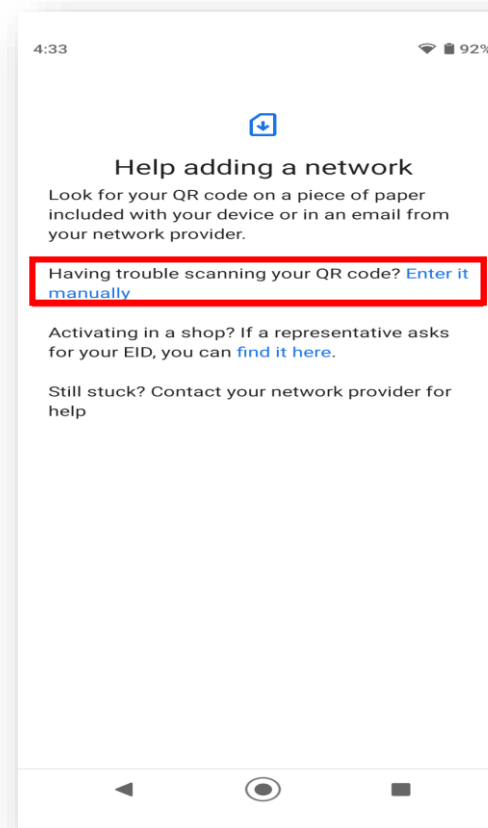

Please wait for few seconds for your device to show the next screen

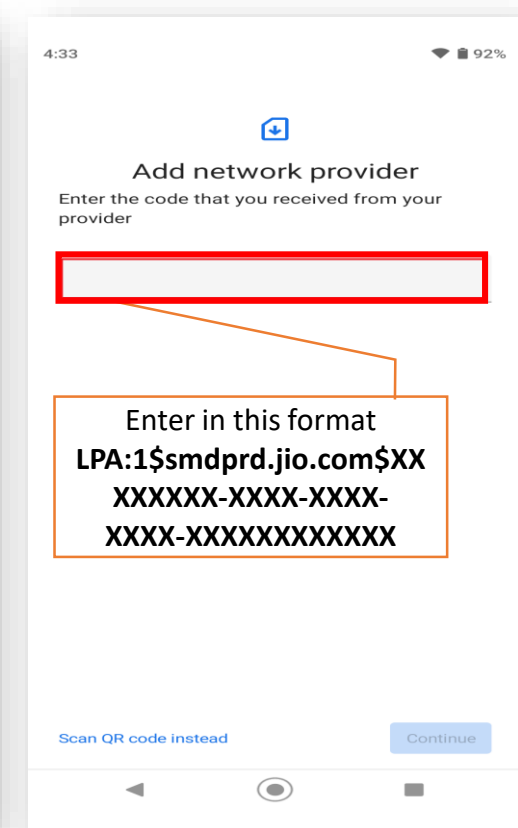

To enter activation code, Tap on "Need Help"

Tap on "Enter it manually"

Enter the Activation Code received via SMS as shown below

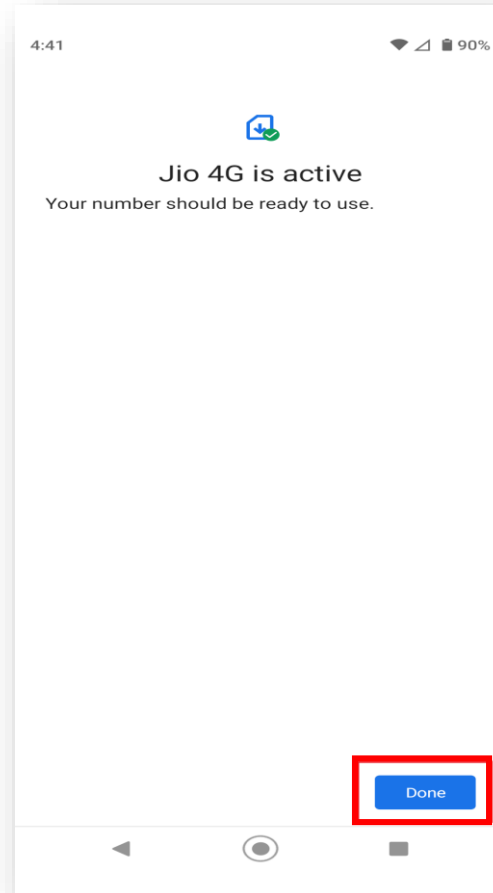

After entering the activation code, Tap on "Activate"

Please wait for the eSIM activation to be completed

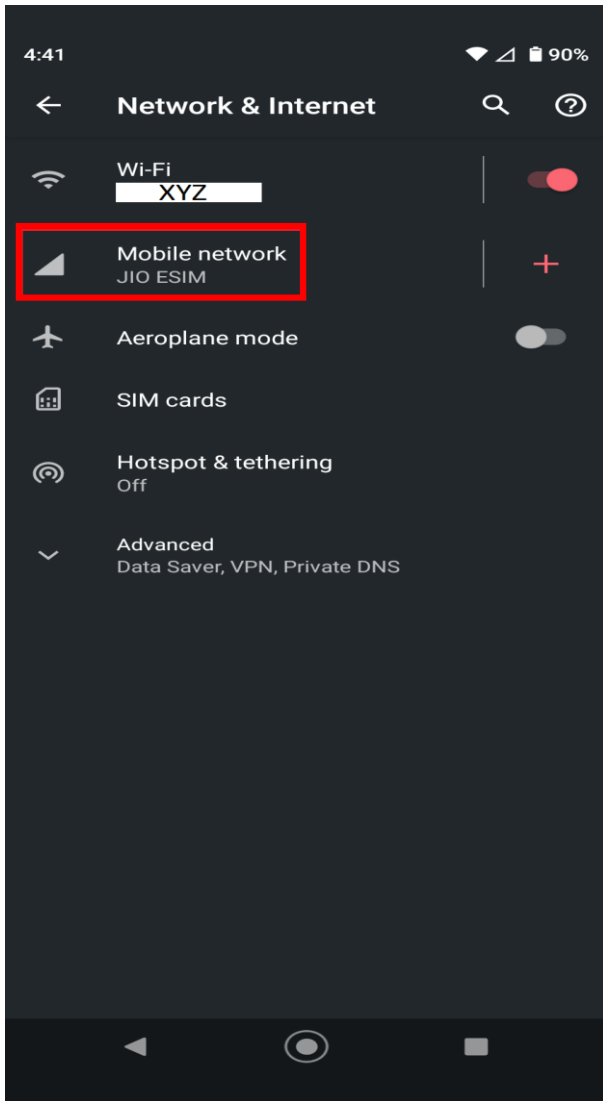

Once activation is completed, Tap on "Done"

Jio eSIM gets successfully activated and reflects under Mobile Network

After Plan addition is completed, Jio eSIM gets successfully activated and reflects under Mobile Network.

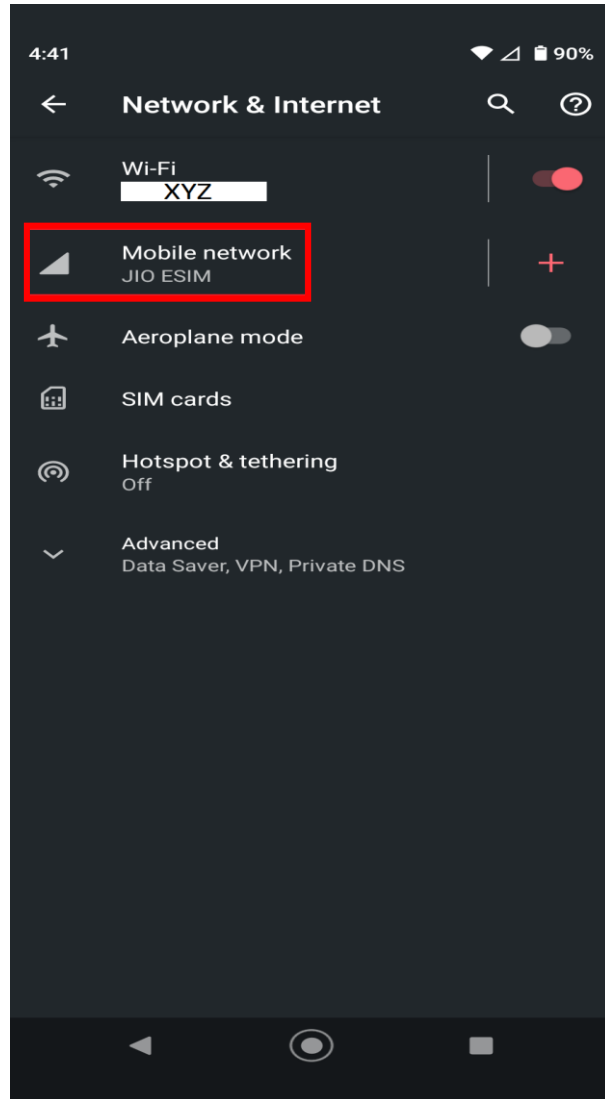

For any assistance with eSIM profile activation, Please call us on 199 from any Jio number or call 18008899999 from non Jio number.

Please Note:

As per regulatory guidelines SMS services on your Jio number will be not be available for 24 hours post eSIM upgrade

Important Information

Please don't delete Jio ESIM as this will permanently delete your eSIM profile and you will not be able to use any Jio services.

- If you have unknowingly deleted then please visit your nearest Jio Store with your Proof of Identity along with Motorola device to place a new request for eSIM. Unfortunately, in this case it will not be possible to configure the new eSIM using the SMS process.

Thank You!
